SUMMARY

I'm a mobile app developer with experience in React Native, focused on building high-performance, cross-platform applications. I have a strong foundation in JavaScript and React.js, supported by a solid front-end development background. I'm passionate about clean UI design, scalable architecture, and solving complex problems.

EDUCATION

Bachelor of Computer Application

Tribhuvan University

2021 – present
Kathmandu, Nepal

Relevant Coursework: C Programming, Java, JavaScript, PHP, MySQL, System Analysis and Design, Software Engineering

PROFESSIONAL EXPERIENCE

React Native Developer

Codeilo Solutions

Worked as a React Native developer, building scalable and high-performance applications for both Android and iOS platforms.

Developer

Customer Management and Sales Tracking System

I have successfully developed a customer management and sales tracking system for a local ISP located in Sindhuli, Nepal. This project was implemented using HTML, SASS, JavaScript, PHP, and MySQL technologies.

Founder & Developer

Writers Chautari

- Founded and developed "WritersChautari," a platform for writers to share their work and connect with others.
- Created an online writing community, facilitating collaboration and sharing of creative content through WritersChautari.

Developer

MBM IdeaX 🔗

I've worked as a developer in the MBM IdeaX hackathon organized by MBM College in collaboration with UNESCO and supported by the Ministry of Education Science and Technology.

PROJECTS

IDAA - Empower your child

Developed a child development app for parents to track milestones, set goals, and support children. Features include structured memory capture, goal tracking, reminders, dashboards, and secure sharing to aid intentional parenting and informed decision-making. Available on **Play Store** 🔗 & **App Store** 🔗

TP Sydney

Designed a streamlined mobile app enabling truck drivers to file insurance claims quickly after accidents. Features include instant photo capture, form submission, and direct integration with insurers—minimizing delays and simplifying the claims process.

Play Store 🔗 App Store 🔗

Admin Dashboard IDAA

React JS

Developed an advanced dashboard for "IDAA" app in React JS. This includes content management, user control, analytics and many more.

CSS Code Generator 🔗

HTML, CSS, Js

- Developed and launched a CSS Code Generator website.

- Enables users to easily generate code for various CSS properties including box-shadow, text-shadow, cursor styles, CSS filters, borders, and transforms.
- Simplifies the process of enhancing web design elements and improves workflow efficiency.

Sangeet

React Native(Mobile) || JS, PHP, MySQL(Web)

- Developed "Sangeet" Music App in React Native.
- Allow users to create profiles and browse the songs.
- Recommend songs to the user according to their browsing history.
- Advanced web-based Admin Dashboard to manage song upload, view analytics, and manage users.

SKILLS

Languages

JavaScript, PHP, MySQL C programming, Java

Frameworks

React, React Native, Electron Js, Bootstrap

Developer Tools

Git, GitHub, Visual Studio Code

VOLUNTEERING

Tutor

Web Development Workshop

- **Co-organized** and taught HTML, CSS and JavaScript basics in a Web Development Bootcamp, collaborating with friends.
- Mentored a group of over **50 students** one-on-one, providing personalized support and guidance in implementing concepts learned during sessions and achieving their goals in Web Development.
